The final rejection of 11/1/02 still stands because the affidavit or declaration filed on January 6, 2003 under 37 CFR 1.131 has been considered but is ineffective to overcome the Burns reference (U.S. Patent No. 5,917,970), the Dishman et al reference (U.S. Patent No. 6,271,953), the Franck et al.reference (U.S. Patent No. 6,188,497), and the article entitled, "linearization of Broadband Analog Optical Link Using Multiple Wavelengths" by Edward Acherman, Technical Digest International Topical Meetings on Microwave Photonics October 12-14 1998, Sarnoff Corporation, Princeton, New Jersey, pages 45-47. The evidence submitted is insufficient to establish a reduction to practice of the invention, a conception of the invention, and to establish diligence of the invention prior to the effective date of the Burns reference (U.S. Patent No. 5,917,970), the Dishman et al reference (U.S. Patent No. 6,271,953), the Franck et al.reference (U.S. Patent No. 6,188,497), and the article entitled, "linearization of Broadband Analog Optical Link Using Multiple Wavelengths" by Edward acherman, Technical Digest International Topical Meetings on Microwave Photonics October 12-14, 1998, Sarnoff Corporation, Princeton, New Jersey, pages 45-47. The affidavit or declaration filed by applicant merely contains conclusion statement or allegation without support of any evidence or fact. Allegation or conclusions of applicant can not take the place of evidence. A declaration by the invention to the effect that his or her invention was conceived or reduced to practice prior to the reference date, without a statement of facts demonstrating the correctness of this conclusion, is insufficient to satisfy 37 CFR 1.131. 37CFR 1.131 (b) requires that original exhibits of drawings or records, or photocopies thereof, accompany and form part of the affidavit or declaration or their absence satisfactorily explained.
